Poster Abstracts: Subject Index

An “S” following the number indicates a poster presented on Sunday (see abstracts on pp. 263-301); an “M” following the number indicates a poster presented on Monday (see abstracts on pp. 301-314). A “w” following the number refers to Works in Progress, for which only titles and authors are published. Note that many posters appear in more than one category.

Assessment (see also OSCE)
An Analysis of Student Self-Assessment of Operative Preparations Using CAD-CAM: A Preliminary Analysis.............................................. PO-063S
Assessment of Student Competence by Fink’s Taxonomy ............................................. PO-008M
Association Between Cumulative Grade Percent and Dental Licensure Exam Results....................... PO-007S
Basic Preclinical Exercises as Educational Probes to Target Early Intervention.......................... PO-062S
Does the Perceptual Ability Test Predict Dental School Clinical Success? .............................. PO-001S
The Effect of Retrieval Practice in Competency-Based Dental Training.................................. PO-044S-w
Evaluation of Student Competencies in Oral Medicine Using Fink’s Taxonomy ....................... PO-012M
Evaluation of Students’ Knowledge of Pain Management Using Solo Taxonomy ...................... PO-013M
The Impact of NBDE Grading Changes on Dental Students .................................................. PO-015S
Is DAT Score an Accurate Predictor of Student Performance in Clinical Dentistry? .................. PO-070S
NBDE Effective Question Writing in a Multidimensional Format............................................ PO-032M-w
New Problem-Based Learning Assessment Tool: Professional Outcomes ............................. PO-022S
Not Everyone Gets a Trophy: Preparing Students for Feedback ............................................ PO-095S
Predicting Performance in Technical Predoctoral Dental Courses Using Advanced Simulation .... PO-071S
The Relationship Between Learning Modality and Academic Performance .............................. PO-044S
Self-Assessment and Peer Assessment in Dental Education: Developing Lifelong Critical Thinking Skills ... PO-079B-S
Student-Developed Exam Questions Lead to Higher Cognitive Level of Learning ................... PO-109S-w
Student Self-Evaluation Versus Faculty Assessment of Operative Competencies: An Analysis of Calibration.................................................. PO-011S
Use of Portfolios for Evaluating Competence in Predoctoral Dentistry .................................. PO-23S
Using Computer-Based Testing to Improve Dental Education Assessment Techniques ............ PO-037M-w
Using Prerequisite Courses to Predict Grades in Dental School ............................................ PO-068S
A Visual Assessment Tool Aiding Faculty-Guided Student Self-Assessment ................................ PO-016M

Biomedical Sciences
Bioengineering Salivary Glands Using Elastomeric Poly (Glycerol Sebacate) Scaffolds ............... PO-040S-w
Learning from Hands-On Activities and Competitive Game in Anatomy Show and Tell .............. PO-038M-w
Restored miR-125b Inhibits Head and Neck Squamous Cell Carcinoma Growth by Regulating Bcl-2 Family Expression ........................................ PO-026S

CAD-CAM
An Analysis of Student Self-Assessment of Operative Preparations Using CAD-CAM: A Preliminary Analysis .............................................. PO-063S
Innovative CAD/CAM Restorative Dentistry Curriculum ...................................................... PO-028M
Integrating CAD CAM Technology into Dental School Curricula ............................................. PO-098S
Student Preferences and Performance in Crown Design: Conventional Versus CAD ................ PO-067S
Using CAD/CAM Technology in Dental Education ............................................................ PO-076S
Using CAD/CAM Technology in Preparation for the Dental Licensure Exam ........................ PO-029M-w

Caries
Pilot Testing CAMBRA/Oral Health Promotion Clinical Competence ................................... PO-080S
The Role of Caries Management by Risk Assessment (CAMBRA) in Patients Seeking Dental Treatment ........................................ PO-083S

Clinic Management
Characteristics of Critical Incidents Occurring in a Teaching Practice ..................................... PO-101S-w
Characteristics of Fee Adjustments in a Predoctoral Teaching Practice ................................ PO-111S-w
Dental Students’ Clinical Performance and Productivity ..................................................... PO-003M
Development of an Online Comprehensive Treatment Planning Tool to Enhance Student Learning and Patient Care ................................ PO-041M-w
Health Literacy: Information Seeking and Understanding of Dental School Patients ............... PO-025S
Innovative Program for Ensuring Infection Control Compliance .......................................... PO-078S
Maximizing Revenue: Sustainability Model in School-Based Oral Health Centers ............ PO-036S-w
Obtaining Resources for Implementing Health Information Technology and Achieving Meaningful Use in Dental Schools ........................................... PO-031M-w
Technology Incorporation: Curricular Management of Dental Innovation in Digital Restorative Dentistry .... PO-112S-w

Clinical Education (see also CAD-CAM)
Chart Review of Treatment of Retained Primary Mandibular Molar Teeth ................................ PO-037S-w
Dental Students’ Education and Attitudes Concerning Local and Topical Anesthesia ................. PO-005S
Dental Students’ Perceived Value of Clinical Leadership Experiences ...................................... PO-018S
Development of an Online Comprehensive Treatment Planning Tool to Enhance Student Learning and Patient Care ................................ PO-041M-w
Enhancing Clinical Experiences Through the Use of Advanced Technologies ........................ PO-110S-w
A Hybrid Course in Diagnosis and Treatment Planning ....................................................... PO-045S
Implementation of Simulation with Clinical Local Anesthesia Teaching: Pilot Study .................. PO-017M
An Innovative Approach for Developing Competence in Lasers for Predoctoral Students.......................... PO-061S
“I Involve Me and I Learn”: Integrating Basic Science and Clinical Education ...................................... PO-046S
Is DAT Score an Accurate Predictor of Student Performance in Clinical Dentistry? ......................... PO-070S
Learning the Essential Skills to Diagnose and Effectively Manage Medical Emergencies ............... PO-084S
Measuring the Use of Evidence-Based Dentistry in Clinical Decisions ............................................... PO-050S
Online Calibration of Faculty and Students Assessing Restorative Dentistry Procedures .................. PO-106S-w
Student Critical Thinking Exercise .......................... PO-099M
Teaching the Science and Clinical Application of Photocuring.................................................. PO-022M

Comparison of Communication Styles in an Interprofessional Student Cohort .................................. PO-021M

The Science of Community-Based Learning: Perceptions and Experiences of Dental Hygiene Students PO-034S-w
Students’ Perspectives on Community-Based Dental Education .................................................. PO-044M-w

Assessing Critical Thinking of Dental Hygiene Students PO-066S
Comparison of Critical Thinking at Entry into a Master’s Degree Program ........................................ PO-001bM
Decision Making in Technology: Institutional Process and Student Critical Thinking Exercise .......... PO-104S-w
Interprofessional Collaborators: Faculty Embrace Critical Thinking and Interprofessional Education Theory ..................................................... PO-107S-w
Pilot Study of Critical Thinking Skills of Dental Students: University of Texas School of Dentistry at Houston Results .................................................................................. PO-072S
Self-Assessment and Peer Assessment in Dental Education: Developing Lifelong Critical Thinking Skills .................................................. PO-079kS

Tobacco Dependence Education in Accredited U.S. Dental Assisting Program Curricula ...................... PO-019S

Dental Hygiene Education PO-066S
Assessing Critical Thinking of Dental Hygiene Students PO-066S
Using Virtual Patients ........................................ PO-066S
A Comparison of A.S. and B.S. Degree-Seeking Dental Hygiene Students on Self-Perceptions as Health Educators .................................................. PO-073S

Dental Hygiene Students and Interprofessional Education in HIV: The JACQUES Initiative, University of Maryland ........................................ PO-90S
Dental Hygiene Transition Clinic: The Science Linking Education to Practice .................................... PO-99S-w
Digital and Film-Based Imaging: Dental Hygiene Faculty Opinions .................................................. PO-059S
Effects of the OSCE on Dental Hygiene Students ....................................... PO-020S
Legislative Advocacy Project .................................. PO-001M
Radiographic Imaging for Disaster Victim Identification by Dental Hygiene Students .................. PO-105S-w
The Science of Community-Based Learning: Perceptions and Experiences of Dental Hygiene Students PO-034S-w
Student Perceptions of Classroom Instruction: Traditional versus Distance Education ...................... PO-060S
Trends in Accredited Dental Hygiene Programs to Meet Economic Employment Forecasts .................. PO-004M

Dental School Admissions (see also Underrepresented Minority Students)
Analysis of Admissions Criteria as Predictor of Program Success .................................................. PO-039M-w
Inclusion of Noncognitive Variables in the Admission Process .................................................. PO-103S-w
Using Prerequisite Courses to Predict Grades in Dental School .................................................. PO-068S
Who Is MCBC? Conceptualizing the Minimally Competent Borderline Candidate .................. PO-015M

Dental Students
Are Dental Students Using Optimal Study Techniques? .................................................. PO-028S
Association Between Dental Students’ Sleepiness and Stress and Their Simulated Clinical Performance........ PO-021S
Dental Course Survey: Development and New Approach to Analysis .................................................. PO-007M
Innate Talent and Gender Influences on Career Choices in Dentistry .................................................. PO-002S
Longitudinal Assessment of Dental Students’ Vision During Dental School .................................. PO-045M-w
Not Everyone Gets a Trophy: Preparing Students for Feedback .................................................. PO-095S
Perceptions of Wellness and Burnout Among Dental Students .................................................. PO-043S-w
Relationship Between Leadership Domain Profiles and Interest in Academic Dentistry .................. PO-018M
Relationship Between Successful Clinical Dentistry Course and What Motivates Millennial Students .................................................. PO-077S
Senior Mentorship Program at Harvard School of Dental Medicine .................................................. PO-037S-w
Student Perceptions and Self-Report of Multitasking Behaviors by Course Structure .................. PO-058S

Educational Methodologies
Comparison of Flipped and Standard Classrooms in a Dental School Setting ................................ PO-009S
Evaluation of the Effects of Blended Learning Pedagogy on Student Learning Outcomes .................. PO-005M
Learning with Games in Dental Education: A Literature Review .................................................. PO-035S-w
More Face Time! Enacting Differentiated Instruction Principles in Flipped Classrooms
New Problem-Based Learning Assessment Tool: Professional Outcomes
Peer Tutoring in Health Care Education: A Review of the Literature
Students’ Perceptions of Experiences with the Flipped Classroom Mode of Teaching
Treating Patients in Preclinical Courses
Weakest Students Benefitted Most from One-Day Team-Based Learning Experience

Educational Technologies (see also CAD/CAM)
Avatar-Mediated Practice Scenarios to Evaluate Cross-Cultural Knowledge and Understanding
Comparing Faculty and Student Use of Social Media
Educational Outcomes: Live Lectures vs. Electronic Media
Enhancing Clinical Experiences Through the Use of Advanced Technologies
Haptic Simulator Tuning Protocol: Method and Preliminary Results
Predicting Performance in Technical Predoctoral Dental Courses Using Advanced Simulation
Student Perceptions of Classroom Instruction: Traditional versus Distance Education
Utilization of Web-Based Teaching Modules

Emergency Training
Bringing Abstract Didactic Knowledge into a Clinically Useful Framework for Dental Emergencies
Learning the Essential Skills to Diagnose and Effectively Manage Medical Emergencies

Endodontology
Evaluation of Endodontics Education Program and Student Learning Quality Using the Solo Taxonomy
Resident Research Productivity During Advanced Specialty Training in Endodontics

Ethics
Assessing Ethical Sensitivity and Reasoning During a D1 OSCE
Reinforcing Ethics and Professionalism: From Academe to Practice

Evidence-Based Dentistry
Measuring the Use of Evidence-Based Dentistry in Clinical Decisions

Faculty Development
Development and Assessment of Discrimination Exercises for Faculty Calibration
Effect of Prior Military Experience on Dental Faculty Teaching Perspectives
Establishment of Formal Faculty Mentorship Program at University of the Pacific Arthur A. Dugoni School of Dentistry
Faculty Development Is a Science of Learning

Using Needs Assessment to Drive Faculty Development

Geriatrics and Dentistry
IPE: Geriatric Interdisciplinary Team Competition (Memory Cafe)

Global Dental Education
Going Global: A Model Process for Bidirectional International Educational Program

Interprofessional and Intra-professional Education
Anticipatory Guidance for Medical Home Providers Regarding Training Cup Use
Comparison of Communication Styles in an Interprofessional Student Cohort
Dental and Allied Dental Student Attitudes and Perceptions of Intraprofessional Education
Dental Hygiene Students and Interprofessional Education in HIV: The JACQUES Initiative, University of Maryland
Dental Students’ Perception of the University at Buffalo’s CARES Program (Social Work Program)
Development and Evaluation of a Diabetes-Periodontal Disease Educational Video Module
Enhancing Interprofessional Collaborative Practice Between Nursing and Dental Students
Interprofessional Collaborators: Faculty Embrace Critical Thinking and Interprofessional Education
Interprofessional Education for Dental and Pediatric Nurse Practitioner Students
IPE: Geriatric Interdisciplinary Team Competition (Memory Cafe)
Nursing and Dental Students’ Experiences with Interprofessional Education
Pediatrics and Dentistry: The Interdisciplinary Team

Operative Dentistry
Student Self-Evaluation Versus Faculty Assessment of Operative Competencies: An Analysis of Calibration

Oral and Maxillofacial Pathology
Determining the Importance of Histology to Pathology Courses in the Dental Curriculum

Oral and Maxillofacial Radiology
Development of a Preclinical Radiographic Shielded Alignment Device
Digital and Film-Based Imaging: Dental Hygiene Faculty Opinions
Effective Teaching Principles Utilized in a Radiographic Interpretation Course: From Shell to Structure
Going Paperless: Student Feedback on an Electronic Radiology Laboratory Manual
Quality of Digital Periapical Radiographs Obtained by Predoctoral Dental Students
Radiographic Imaging for Disaster Victim Identification by Dental Hygiene Students
Poster Abstracts: Subject Index (cont.)

Orthodontics
Effectiveness of a Predoctoral Orthodontic Honors Program on Postgraduate Education
OSCE (Objective Structured Clinical Examination)
Assessing Ethical Sensitivity and Reasoning During a D1 OSCE
Dental Student Self-Assessment Efficacy in a Comprehensive OSCE
Effects of the OSCE on Dental Hygiene Students' Introducing a New Method of Setting OSCE Pass Scores
OSCE Examination Assessing Preclinical Understanding of Complete Dentures and RPDs
OSCE as Predictor of Student Performance and Calibration of Faculty Assessments

Patient Education
Engaging Patients in Health Care Education: Integrating Experiences into Preclinical Training
Health Literacy: Information Seeking and Understanding of Dental School Patients
Oral Health Education for New Mothers on the Postpartum Unit
What Do Adults Know About Baby Teeth? A Pilot Study

Patients with Special Health Care Needs
Evaluation of Special Needs Curriculum: Pediatric Dental Residents' Knowledge and Satisfaction
Pediatric Dental Residents' Intent to Treat Patients with Autism after Graduation

Pediatric Dentistry
Anticipatory Guidance for Medical Home Providers Regarding Training Cup Use
Evaluation of Special Needs Curriculum: Pediatric Dental Residents' Knowledge and Satisfaction
Oral Health Education for New Mothers on the Postpartum Unit
The PAC Program: Expanding Dental Student Education Through a Foster Care Partnership
Pediatric Dental Residents' Intent to Treat Patients with Autism after Graduation
Pediatrics and Dentistry: The Interdisciplinary Team
What Do Adults Know About Baby Teeth? A Pilot Study

Periodontics
Development and Evaluation of a Diabetes-Periodontal Disease Educational Video Module
Epithelial Cell Function in the Progression of Periodontal Disease
The Relationship of Parity and Severity of Periodontal Disease

Postdoctoral Dental Education
Aiding Students Applying for Residency Programs: Collaboration Between Office of the Dean and the Library

Effectiveness of a Predoctoral Orthodontic Honors Program on Postgraduate Education
Factors Influencing Dental Student Specialty Choice: Changing Perceptions of Specialties
Resident Research Productivity During Advanced Specialty Training in Endodontics

Practice Management
A Look at Practice Management Confidence and Satisfaction Levels in Practicing Dentists

Prosthodontics
Efficacy of Preclinical Fixed Prosthetics Courses Preparing Students to Treat Patients: Survey Analysis
OSCE Examination Assessing Preclinical Understanding of Complete Dentures and RPDs
Quality Assurance in Fixed Prosthesis at UAB School of Dentistry
Teaching Complete Dentures with Standardized Patients in the D2 Year

Public Health Dentistry (see also Patient Education)
College Students' Oral Health and Nutrition
Dental Students’ Perception of the University at Buffalo’s CARES Program (Social Work Program)
An Interprofessional Student-Run Clinic for the San Antonio Refugee Population
The PAC Program: Expanding Dental Student Education Through a Foster Care Partnership
Reporting of Child Abuse and Neglect in the Latino Population

Teaching and Learning
Assessing the Dental School Learning Environment and Cultural Climate
Pilot Survey Designed to Understand Faculty Perceptions on the Linkage Between Building Design and Learning
Pioneering Toolkit Pilot Course Enhances Student Research and Learning Experience
Seeking the Optimal Teaching and Learning Model in a Clinical Setting: A Simple Survey
Student and Faculty Learning Styles Related to Student Preferences
Student Perspectives on Qualities of an Effective Dental Educator

Tobacco Cessation Education
Evaluating the Inclusion of Cultural Competence in a Tobacco Dependence Curriculum
Tobacco Dependence Education in Accredited U.S. Dental Assisting Program Curricula

Underrepresented Minority Students
Creating a Model for Success: DentPath
DDS Summer Scholars Program Solidifies Pre-Professional Students’ Pursuit of Dentistry
Pipeline Program to Expose Disadvantaged Public School Students to Dentistry
